

## Export of Pet Food to Argentina

Argentina prohibits the importation of pet food containing ruminant origin materials from the United States and shipments are subject to species identification testing. However, shipments of pet foods containing ovine ingredients imported from Australia and New Zealand have been acceptable. The export health certificate must clearly identify such ingredients. Exporters are encouraged to check with their importer to verify labeling and import requirements.

Argentina requires that a valid Authorization Notice have been issued. Argentina advises that the appropriate Arrival Notice must be submitted at least three business days before the merchandise arrives by ship, container, truck, plane, etc., attaching the necessary documentation in compliance with the current import requirements.

Recommended statements for the VS form 16-4 are as follows:

This office has on file a notarized affidavit from [insert company name] verifying the accuracy of the statements below: / *Esta oficina mantiene en archivos una declaración notarizada de [nombre de la compañía] que verifica la certeza de las declaraciones de abajo:*

1. The raw materials used in the manufacture of the product were obtained from healthy animals subject to slaughter inspection and found to be fit for inclusion in pet food. The product was manufactured in authorized facilities subject to inspection by the United States Department of Agriculture.
